**SUPPLEMENT TO PETITION FOR RULE MAKING**

Entravision Holdings, LLC ("Entravision"), licensee of Station KVVA-FM, Apache Junction, Arizona, by its counsel, hereby supplements its *Petition for Rule Making*, filed on March 23, 2004. The purpose of this Supplement is to inform the Commission that on January 13, 2005, Cortaro Broadcasting Corporation ("Cortaro") filed its long form application to change the community of license of its Station KCKY(AM), proposing to relocate from Coolidge, Arizona to Apache Junction, Arizona.<sup>1</sup> See BMJP-20050113AAB. This application has been determined to be a "singleton" by the Commission, as detailed in *Public Notice*, DA 04-3596 released November 17, 2004. Cortaro filed this application in conjunction with the instant rule making proceeding in order to ensure that existing local transmission service is maintained at Apache Junction. In support hereof, Entravision states as follows:

1. In its *Petition*, Entravision requested that the Commission, *inter alia*, change the community of license of Station KVVA-FM from Apache Junction to Peoria, Arizona. In order to maintain local service at Apache Junction, Entravision specified that it had entered into an

<sup>1</sup> Cortaro's short form application was filed in the AM Auction 84 filing window. See BMJP-20040128AKH.

agreement with Cortaro, pursuant to which Cortaro filed a major change application to change the community of license of Station KCKY(AM), from Coolidge, Arizona to Apache Junction, Arizona without changing its transmitter site. See BMJP-20040128AKH. Entravision also requested that the Commission consider the Cortaro application in conjunction with this Petition. In support of this request, Entravision included a statement from Cortaro indicating that Cortaro is committed to serving Apache Junction and desired to have its application coordinated with Entravision's Petition.<sup>2</sup>

2. On November 17, 2004, the Commission released a *Public Notice* announcing the AM Auction 84 "singleton" applications. See DA 04-3596, *supra*. Cortaro's short form application for KCKY was included on this list, and Cortaro was directed to file its long form application by January 18, 2005. Cortaro filed its long form application on January 13, 2005. See BMJP-20050113AAB. This application specifies that KCKY will continue to use its current transmitter facilities at Apache Junction and, as such, is not in conflict with any other application filed in the AM auction window. Because the KCKY facilities will not change, those facilities comply with the AM technical rules, and because the KCKY application is a "singleton," its grant should be a routine matter. Moreover, there will be no delay in providing service to Apache Junction once KVVA-FM relocates to Peoria because KCKY's existing facilities provide principal community coverage to Apache Junction. Therefore, Entravision reiterates its request that the Commission consider its Petition in conjunction with Cortaro's KCKY application under the precedent of *Marion and Johnston City, Illinois*, *supra*. This will allow Entravision to change the community of license of KVVA-FM and provide Peoria with its first local service.

---

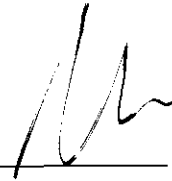

<sup>2</sup> Entravision has relied on the Commission's decision in *Marion and Johnston City, Illinois*, 18 FCC Rcd 15346 (2003), where the Commission considered a petition for rule making in conjunction with a major change application in order to ensure that a community retained local service.

In view of the fact that the Petition was filed nearly a year ago, Entravision urges the Commission to act expeditiously on its request to commence a rule making proceeding.

Respectively submitted,

ENTRAVISION HOLDINGS, LLC
